

Baron

Construction

Legs

Metal or wood

Top

Glass, ceramic or wood

Origin

Made in Europe

Key Features

The Baron drop-leaf table with perimeter legs and frame in wood features a rectangular top in wood or tempered glass.

The Baron contains a handy mechanism able to extend the top surface. Pull the frame towards you so that the two legs with hidden castors slide on one side allowing the leaf to be pulled out. With a simple rotation the leaf fitted on metal tracks comes out of its housing and lines up with the top. The legs stay at the perimeter, ensuring maximum comfort for all diners.
